Commercial recycling for your businesses

If your business isn't recycling, now is the time to start! If you discard large amounts of cardboard or other recyclables, the commercial recycling program could help you drastically reduce your monthly garbage expenses. Items that can be recycled include:

- Cardboard
- Plastic
- Aluminum
- Glass
- Magazines
- Newspapers

How it works

Commercial businesses that choose to recycle must use the City of Fargo garbage service to receive the recycling container (exceptions can be made on an individual basis). Contact Solid Waste at 701-241-1449 to learn more about commercial garbage services.

Customers may choose to have their recycling collected on a regular schedule or an on-call basis at a charge of \$5 per product collected, per time collected. For example, if you had plastic and cardboard each collected one time per week it would cost \$10 a week (\$40 a month). The charge can be added to your water bill or billed directly, if necessary.

If a large portion of your garbage is recyclable, paying for recycling and reducing the number of garbage picks ups you receive could save hundreds of dollars.

Container sizes

A variety of container sizes are available to meet the recycling needs of any size business.

Container	Size
	2 yard 48Hx55Lx62W 2 yard containers have wheels for mobility
	4 yard 49Hx85Lx62W
	6 yard 29Hx122Lx62W
	8 yard 49Hx155Lx62W
